1999 Statewide Annual Licensure Report

Introduction

This report provides the licensure examination results for two-year technical associate degrees and one-year certificate programs that lead to professions requiring licensure. The Texas Higher Education Coordinating Board uses this information as part of its overall assessment of the effectiveness of technical education programs at community and technical colleges in the state.

In the spring of 1997, the Coordinating Board and the Legislative Budget Board expressed an interest in using licensure data as a specified performance measure of programs at community and technical colleges. Subsequently, the 75th Texas Legislature enacted House Bill 2517, which requires that public community colleges. Effective September 1, 1997, the Texas Legislature requires that public community colleges annually report nine performance measures beginning September 1, 1997. One of those measures is the percentage of students who pass a licensure exam.

Licensure examinations test a person's knowledge to ensure a certain level of competence. By testing, the state or professional organization that awards the license helps safeguard the public from injury by the practitioner. The Coordinating Board recognizes that the success rate for licensure is an integral part of the overall success of many technical programs. This report adds to the ongoing process of continuous improvement and promotion of accountability in Texas community and technical college programs.

Methodology

In May 1997, the Coordinating Board staff contacted the agencies and professional organizations that had provided examination results for the *1997 Statewide Annual Licensure Report* (1996 data). For the *1999 Licensure Report*, the Coordinating Board staff requested that the agencies and professional organizations provide results for examinations administered in the 1998 calendar year. The requested data included the number of individuals who took the test and the number of individuals who passed the test.

The *1999 Statewide Annual Licensure Report* includes data on the following 15 licensure examinations:

- | | |
|--------------------------------------|----------------------------------|
| ! Cosmetology | ! Law Enforcement (Academy) |

Limitations

Several professions were not included in the study because licensure information was incomplete. Some state licensing agencies and professional organizations do not track candidates' schools. These programs are as follows:

! Air Conditioning and Refrigeration

The agency that maintains data on this profession is the Texas Department of Licensing and Regulation, and it does not currently track licensure data by college.

! Child Care Administration

The Department of Health and Human Services maintains records for this field. Experience and course work are required to enter the field, and DHS focuses more on tracking experience than course work. Licensure data by college is not available at this time.

! Dental Hygienist

Records for this field are maintained by the regional testing organization, the Western Regional Examining Board. As of 1996, the Western Regional Examining Board sends only individual scores to candidates' institutions. The Coordinating Board is attempting to receive test scores in the future.

! **Emergency Medical Technology**

This program was not included in the study because licensure information is incomplete. The Texas Department of Health, which is the agency that maintains data on this licensure examination, was not able to provide the requested data. The agency explained that it would be a significant administrative burden to create a report of aggregated results by institution for the Emergency Care licensure examinations. However, the Texas Department of Health indicated that they expected new computer equipment for the upcoming year that would enable such reporting in the future.

! **Insurance Agent**

The Texas Department of Insurance does not maintain records by college for this profession.

! **Land Surveyor**

The Texas Board of Professional Land Surveyors, charged with tracking licensure, requires experience and course work to enter the field, but the TBPLS focuses more on tracking experience than course work. Therefore, licensure data by school is not available at this time.

! **Medical Radiologic Technology**

Data for this profession is maintained by the national professional organization, the American Registry of Radiologic Technologists. As of July 1996, the ARRT sends individual scores only to test candidates' institutions. The Coordinating Board will try to get test scores in the future.

! **Real Estate Broker/Sales Agent**

Currently, the Texas Real Estate Commission does not maintain data for licensure rates of participating community colleges

! **Respiratory Therapy Technician**

Data for this profession is maintained by the national professional organization, the National Board for Respiratory Care. As of 1996, the NBRC sends only individual scores to test candidates' institutions. The Coordinating Board is attempting to receive scores in the future.

! Security Guard

More than 20 community colleges offer training for private security guards but the Texas Board of Private Investigators and Private Security Agencies does not maintain licensure rates by participating community colleges.

! Social Worker

The Texas Department of Health does not track licensure results by school for social workers with associate degrees. Data is only maintained for social workers with bachelors' or advanced degrees.

! Underground Storage Tank Installer

El Paso Community College offered a course in this profession in the past, and other community colleges may offer the course in the future. Presently, the Texas Natural Resource Conservation Commission does not maintain licensure rates for El Paso Community College.

Profiles of Licensure Examinations

CIP 12.0301 Funeral Directing/Embalming

Mortuary Science Program San Antonio College
1300 San Pedro Ave.
San Antonio, TX 78212-4299
(210) 733-2905

Felix Gonzales, Coordinator

In 1997, only one public community college offers a program in mortuary science. At the July 1998 Texas Higher Education Coordinating Board meeting, Amarillo College received approval to begin a program in mortuary science. The sequence for licensure in Texas requires graduation from an accredited program; an examination at the state level on mortuary science law; separate examinations at the national level in embalming and funeral directing; a 12-month apprenticeship; and finally an exit interview conducted by a member of the Texas Funeral Service Commission. Licensure is based on a 75 percent or better score on all examinations. The state exam consists of 50 questions and is given once per month at the Texas Funeral Service Commission and once every six months at mortuary science schools. Since 1985, all San Antonio College Mortuary Science graduates have passed the state exam. Exam results in this report refer only to the national level examinations covering funeral directing and embalming.

Ten public community colleges offer associate degrees in Fire Protection. Thirteen community colleges offer both certificates and associate degrees, and one community college offers only certificates. The Coordinating Board obtained data for the 10 community college programs that the Texas Commission on Fire Protection oversees. Local fire departments conduct the remaining programs and licensure exam test results are not maintained by TCFP. Licensure exams are given in three areas: Structure (the traditional firefighters' profession), Arson and Inspector. All exams are given at the completion of a Fire Protection curriculum. While the Arson, and Inspector exams contain only a written portion with a 70 percent passing standard, the Structure exam is both written and practical. The Structure written portion also maintains a 70 percent passing standard for licensure but the practical portion is based on a timed skill point system. The written and practical portions of the Structure exam are quality weighted. After the installation of a new database system in late 1996, the Texas Commission on Fire Protections is expected to have accurate licensure data for more community colleges.
